Subject: Final SEMD review: Response to Senator Feinstein DDT cleanup in Palos Verdes Shelf Letter
Attachments: DF to EPA AA Nishida.pdf; Draft Senator Feinstein Response.docx

Hi Enrique,

Attached is the OPA reviewed version of the Senator Feinstein DDT cleanup in Palos Verdes Shelf response. Our edits didn't touch any of the substance of the letter, but please let me know if this version is clear to share with Deborah.

Sonam

Mike and Sonam,

We have not discussed who will be controlling the versions and comments from here on out. But I did just incorporate Enrique's comments on the document (in yellow) and changed the document name.

John

Mike and Sonam, The attached version is ready for your and Deborah's review, while Enrique does a concurrent review.

Meanwhile, NOAA shared with me their near final response that has been approved at the undersecretary level. Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)	As included in our draft response, we are initiating a meeting with fed and state partners in April with hopes of clarifying roles/responsibilities and next steps.

Good morning,

Thanks for the update yesterday on where the Feinstein response document is in the SEMD review process. Debbie mentioned that she wanted to have adequate time to review it prior to its due date (3/22). Can you let me know when you plan to share the draft with Mike and I for review?

Thanks,

Sonam

Thomas/Ylan, I really appreciate the close read and reordering of things. It reads better. The document is now with John Lyons. He is meeting with Mark Gold from the CA Oceans program today and will look at the letter after that.

I appreciate Julia's efforts to find a NOAA contact -- both to followup on our feedback of their draft response and to potentially float our basic response at the right time. Maybe you should give one of those contacts you identified a try. DOI/FWS didn't answer my emails at all, so I'm also looking for an additional contact there if anyone has any ideas. I was mainly trying to find out if they received a similar letter and then share our response.

John, don't shoot me, but I took a crack at some edits. Best to view in simple markup. There's lots of red, but mostly just because I moved things around. Ylan commented on this draft too, but I take all the blame.

PV Shelf/Drum Disposal team,

Here's a draft response for your review. After incorporating any comments, I will share with John Lyons and Enrique. At some point I will also share the basic language with NOAA and DOI. NOAA received a similar letter and I've already commented on their draft language to ensure consistency in our federal responses.

Thanks,

John

Subject: Response Due 3/22: Sen. Feinstein Letter on Status of DDT cleanup in Palos Verdes Shelf from Montrose Chemical site in Torrance, CA

Hi John and Angeles,

Today's letter from Senator Feinstein regarding the status of DDT cleanup in the PV Shelf has been controlled to the Region for RA signature. The due date is **Monday, March 22, 2021**. Please let me know who in SEMD will lead drafting the response so I can fill out and share the routing slip.

Thank you,

Sonam Gill
